## HIGH-RESISTANCE PE FOAM SOLUTIONS.

Ocean Green® profiles are made of extruded polyethylene foam, available in a variety of densities and dimensions. This customized PE foam offers exceptional resistance to scratches, pressure, and impact, making it ideal for protecting high-value and sensitive products.

From furniture
to fragile instruments:
**we've got you covered.**

## CHOOSE SMART. CHOOSE GREEN. CHOOSE OCEAN GREEN®

# OCEAN GREEN® PROFILES

## 100% RECYCLED. 100% SMART.

Ocean Green® profiles are made entirely from 100% recycled polyethylene foam.
A unique offering in the market. And that's not all:

- Made from 100% recycled content
- Up to 75% less raw material used compared to cardboard
- Up to 9x lower $CO_2$ emissions
- More cost-effective than most alternatives
- High resistance to shocks and scratches
- Lightweight, durable, and easy to handle
- Validated by PolyCert

## WE DID THE TEST OURSELVES.

How do you protect the Mona Lisa? We compared the environmental footprint of cardboard corner protectors with our Ocean Green® foam corners. The result?

**With the same $CO_2$ emissions needed to protect 1 Mona Lisa with cardboard, you could protect 9 Mona Lisas with Ocean Green® corners.**

| PRODUCT | PRODUCT WEIGHT (g) (avg. value 10 samples) | DENSITY (kg/m³) (avg. calculated value 10 samples) | $CO_2$ FOOTPRINT (g $CO_2$ per product) |
|---|---|---|---|
| Cardboard corner protectors | 13.6 | 166 | 9.1 |
| Ocean Green® profile (u25) | 3.2 | 29 | **1.0** |
| Cardboard edge protectors | 20.0 | 112 | 13.4 |
| Ocean Green® edge protectors | 4.9 | 29 | **2.4** |

**Recycled cardboard**
**36,4 g $CO_2$**
to protect the Mona Lisa

**Ocean Green® Profiles**
**3,8 g $CO_2$**
to protect the Mona Lisa

If you really care about the environment, choose **Ocean Green® profiles**.

# The right profile for every application.

Ocean Green® product range

## ABRIPROFILE® OCEAN GREEN®

### L-PROFILE

- **L-profile for side protection**
- **Dimensions:** from 30 mm x 30 mm to 75 mm x 75 mm (A x B)
- Available with self-adhesive strip on request

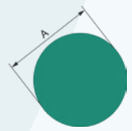

### OP-PROFILE

- **Open profile, flexible use**
- **Diameter:** from 10 mm to 100 mm (A)

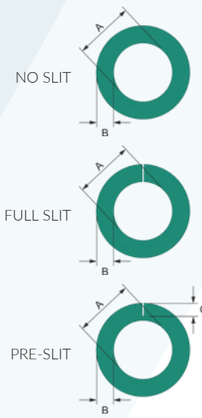

### O/OS/OPS-PROFILE

- **Round or semi-round protection profiles**
- **Internal diameter:** from 12 mm to 61 mm (A)
- **Thickness:** from 9 mm to 12 mm (B)

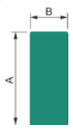

### R-PROFILE

- **Rectangular profile**
- **Height:** 50 mm (A)
- **Widths:** from 10 mm to 50 mm (B)

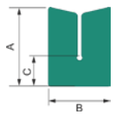

### RS-PROFILE

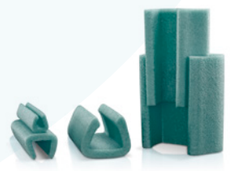

- **Reinforced rectangular profile**
- **Heights:** from 30 mm to 42 mm (A)
- **Widths:** from 20 mm to 33 mm (B)

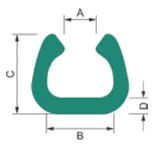

### U FIX-PROFILE

- **Fixed shape, durable**
- **Dimensions BASE:** from 16 mm x 150 mm (B)
- **Dimensions HEIGHT:** from 30 mm x 105 mm (C)
- **Thickness:** from 7 mm to 20 mm (D)

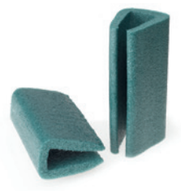

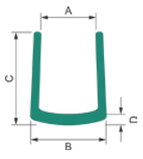

**We have a profile for every product.**
No matter the shape, size or fragility.

### U-PROFILE

- **Standard U-profile**
- **Dimensions BASE:** from 58 mm x 80 mm (B)
- **Dimensions HEIGHT:** from 68 mm x 90 mm (C)
- **Thickness:** from 6 mm to 20 mm (D)

### W-PROFILE

- **Profile for heavy-duty applications**
- **Dimensions:** from 50 mm x 50 mm to 100 mm x 100 mm (A x B)
- **Thickness:** from 21 mm to 50 mm (C/D)

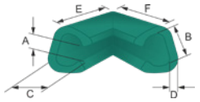

## ABRICORNER® OCEAN GREEN®

### U FIX-PROFILE

- **Fixed U-shape protection for corners**
- **Dimensions corners:** 100 mm x 100 mm (E x F)
- **Dimensions BASE:** from 16 mm x 96 mm (B)
- **Dimensions HEIGHT:** from 19 mm x 72 mm (C)
- **Thickness:** from 7 mm to 20 mm (D)

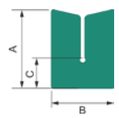

### RS-PROFILE

- **Reinforced corner for added strength**
- **Dimensions corners:** 100 mm x 100 mm (E x D)
- **Dimensions BASE:** 26 mm (B)
- **Dimensions HEIGHT:** 33 mm (A)
- **Thickness:** 14 mm (C)

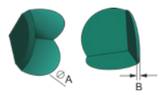

### C-PROFILE

- **Profile for rounded edge protection**
- **Dimensions:** from 70 mm to 100 mm (A)
- **Thickness:** from 10 mm to 20 mm (B)

### U FIX MULTISHAPE-PROFILE

- **Versatile multi-use corner profile**
- Made on profiles U FIX 25, U FIX 35 and U FIX 45
- Minimum distance of incisions is 50 mm
- Perforations also possible
